The Sick at Manila.

A cablegram just received from Manila via Hong Kong and therefore uncensored reports that 3,000 American soldiers are sick in the various hospitals, while an official report put the figure at 1,800. The regimental surgeons report that large numbers of soldiers on duty are practically unfit for active service. Chief Surgeon Woodhull says the increase in the military forces in the Philippines necessitates the employment of forty additional surgeons. General Otis has so far disapproved of this recommendation.

The lynching of the five Italians at Tallulah, La., has already been the subject of an official note by the Italian Government to the Department of State. The incident recalls the lynching of men of the same nationality at New Orleans during Harrison's administration. It almost caused a war and did result in the withdrawal of the Italian Minister from Washington. The matter is viewed with some concern by official circles. The lynched Italians met their death at the hands of a mob because they had waylaid and tried to murder a citizen of influence and good repute. Secretary of State Hay has ordered a strict inquiry into the incident.

Every President starts his administration with the hope of being able to keep his Cabinet intact during his term of office, but only one of them—Pierce—ever succeeded in doing it. But with the exception of Jackson and Tyler, whose cabinets went all to pieces for well understood reasons, President McKinley has had more changes in his cabinet than any of the presidents and his administration is not two-thirds gone yet. Only three of the original members of the Cabinet are still members—Gage, Long and Wilson.

An exchange says: "When a farmer sells \$500 worth of hay he sends away from his farm over \$300 worth of fertilizers, and when he sells \$500 worth of wheat he disposes of \$125 worth of fertilizers. But when he sells \$600 worth of dairy products he parts with less than \$50 worth of fertilizers. And when he sells \$500 worth of fruits he loses less fertilizer than either of the other because fruits are composed largely of actual solids. This shows that the highest priced products rob the farm the least, and is an argument in favor of diversified and intensified farming.

A young bachelor sheriff was called upon to serve an attachment against a beautiful young widow. He accordingly called upon her and said: "Madam I have an attachment for you." The widow blushed and said his attachment was reciprocated. "You mistake me," said he, "you must proceed to court." "I know it is leap year, but I prefer you do the courting," replied she. "Mrs. P," continued the sheriff, "this is no time for trifling; the justice is waiting." "O! I had rather have a parson if you dont mind it."

With and Without the Well.

A Hartford lawyer tells of a client in one of the adjoining towns who had a farm to sell. He had recently sunk a well on it, and the job cost quite a sum. Consequently, when he talked of disposing of his property, the well caused him considerable anxiety.

"How much do you ask for the farm?" the lawyer asked.

"Wal, I'll tell yer," drawled the farmer. "I'll sell the dern place for \$700 with the well, and I'll let her go for \$600 without the well."—Ex.

The drug store of Barton & Clubb, of Bethlehem was almost totally destroyed by some one applying a stick of dynamite to it. The sheriff says he has a good clew and will soon locate the guilty parties.

There is strong talk of extending the Lexington street railway to Richmond, Winchester and other surrounding towns. The movement is receiving no flattering encouragement from the surrounding towns however.

Rev. Lee Bowman who, up to a few weeks ago, was pastor of the Baptist church at Versailles, has brought suit against Thos. Sellar, one of the deacons of the church, for \$40,000 for saying that Bowman was intoxicated in the pulpit.

Near Spring Station, Dr. John R. McKee was in his field smoking a cigarette and carelessly threw it down, and went to another part of the field. The deadly little instrument ignited the dry hay and the result was about 50 acres of hay burned up.

Mr. W. B. Powell, who lives near the depot, has a freak in the way of a chicken. By nature it has just one leg, which is located about half way between where the two legs on ordinary chickens are. The little freak hops around with the rest of the brood and bids fair to become as large as the rest.—Harrodsburg Democrat.

A corps of men are now in Rockcastle county surveying the proposed line of road from Jellico, Tenn., to Burgin, which will pass through Lancaster and cross the Knoxville branch of the L. & N. near Brodhead, and run through the southwest end of Rockcastle, Laurel, and Whitley counties, crossing Rockcastle river near Rockcastle Springs.—Richmond Pantagraph.

The report comes from Beechburg, Fleming county, of the destruction of the Mormon church at that place and on which insurance was being carried, fearing that the church might be burned. To prevent the congregation from securing any insurance, a mob which considered the church a nuisance to the community took axes and saws and completely destroyed the building by laying it into a thousand pieces. While the mob was doing its work it was guarded by men armed with Winchester rifles to shoot down anyone who might be disposed to interfere. One man who attempted to discover who the outlaws were was shot, but not fatally.

To speak a thoughtless word against the good name of a fellow man is to commit a sin of no ordinary magnitude.

The following is an advertisement of a Dakota magistrate:

Lovers, Take Notice.—On and after this date I will present an elegant chromo, a parlor lamp or a glass water set to all bridal couples married by me. All marrying done in the most artistic way, either in public or private. Runaway couples married at any hour of the day or night, and pursuers thrown off the scent. Reduced rates to those I have married before. A red lantern hangs in front of my door on Prairie street at night. No dogs kept. Night bell directly under the lantern. Mosie Dodd, J. P.

Elizabeth Fry's Rules.

Here are five rules which a great and good woman tried to keep. Her life proved them to be such good rules that we copy them:

1. Never loose time I do not think that lost which is spent in amusement or recreation every day; but be always in the habit of being employed.
2. Never err the least in the truth.
3. Never say an ill thing of a person when thou canst say a good thing of him. Not only speak charitably, but feel so.
4. Never be irritable or unkind to anybody.
5. Never indulge thyself in luxuries that are not necessary. Do all things with consideration, and when thy path to act right is difficult put confidence in that power above, which is able to assist thee, and exert thine own powers as far as they go.—Exchange.

The observer states that "the inexplicable fact on any ground but the truth is that where Christianity reigns there is civilization, and where it has not gone civilization does not exist. As nations or islands are converted, they immediately take on civilization."

Mr. Albert Burgher spent

part of the day Monday putting in new globes and the town is better lighted now as a result.

On Sunday the Lexington Champion Base Ball club played the first nine Clay City club on the Clay City club grounds. The score stood at the close, Lexington one; Clay City twenty-one. This was good for the Clay City boys, but they must not become elated over this victory, and loose their skill. Eternal vigilance and practice is the price of success. We are so elanish that we are always glad when our side beats. We are glad the Clay City boys won, and hope they will ever wear honor, and wherever they go let the report follow that they acted manly always.

There has been very serious trouble here. On last Saturday afternoon a good deal of restlessness was manifested. After careful investigation as to the cause, it was learned that early in the present season a number of our citizens had become members of that ancient and time-honored order known as "The Sons of Rest." The order seems to have worked well and prospered for a while, but a recent meeting it was revealed that some had violated their obligation, others had given away the pass word, and still others were behind with dues. An effort was made to adjust matters, and it did look for a while like blood would be spilt and the ground pawed up. They went into secret conclave with the Supreme Grand Mogul, and after long consultation, it was agreed to let the offenders confess their errors, readjust their delinquencies, pay up their dues and continue their order intact so now they rest from their labors, and their works do follow them. "Esprit Fort."

with the following forecast for
the coming winter:

"As Christmas comes this
year on Monday, we can look

land, and great distress among
nations. There will be during
the winter twenty-five snows.

spells, one in December, the
other in January. Ice will be
three and one-half inches and
five inches thick. There will be
ten days of zero weather. The
coldest day will be ten below
zero. The people can lay in
coal and be ready as I have
warned you all in time."

We received 50 cts. in stamps
to pay for the TIMES one year
from W. A. Christopher, of Me-
na, Ark., last week. We intended
to publish this letter but it got
dampened while in our pocket
which caused the stamps to stick
to the letter, mutilating it so we
could not read it, but we saved
the stamps.

About one month ago my child,
which is fifteen months old, had
an attack of diarrhoea accompa-
nied by vomiting. I gave it such
remedies as are usually given in
such cases, but as nothing gave
relief, we sent for a physician
and it was under his care for a
week. At this time the child
has been sick for about ten days
and was having about twenty-
five operations of the bowels ev-
ery twelve hours, and we were
convinced that unless it soon ob-
tained relief it would not live.
Chamberlain's Colic, Cholera and
Diarrhoea Remedy was recom-
mended, and I decided to try it.
I soon noticed a change for the
better; by its continued use a
complete cure was brought about
and it is now perfectly healthy.

National Prosperity and Roads.
Chairman Otto Dorner, of the
Highway Improvement Commit-
tee of the League of American
Wheelmen, makes the following
interesting remarks on the good
roads movement: "The country
road is the neglected step-child
of the Legislatures. Railroads,
canals, rivers and harbors and
steamship lines have been en-
couraged and lavishly subsid-
ized with bonuses, but practically
nothing is done to help the far-

Can be connected to any
kind of stove. Saves time, fuel and money.
By the use of a damper you can turn the
heat on or off as desired. Their heating
power is wonderful. Easily cleaned. The
great amount of heat usually passing out
of the chimney is arrested and made to do
service in place of another stove.
ROSEMONT RADIATORS are neat
and attractive. Prices reasonable. Send

mer in building his country roads.
Yet those are equally important
with railroads.

"We are pre-eminently an ex-
porting agricultural nation, and
whatever benefits the farmer ben-
efits the whole country. Our grain
products must compete in Euro-
pean markets, with the crops of
Russia, South America and India,
raised on cheap lands, with cheap
labor. We can meet this competi-
tion only with invention and en-
terprise, the liberal use of machin-
ery and the reduction of the cost
of transportation to a minimum."

"The cost of shipping grain
from Chicago to New York has
dropped to one-fifth of what it
was at the close of the Civil war;
we can ship it from there to Liv-
erpool for four cents, where we
formerly paid ten and one-half
cents. But the cost, in time and
effort, of man and beast, in haul-
ing wheat from farm to the rail-
road can still be reduced by two-
thirds through good roads. That
this should be done is as essential
to the continued success of Amer-
ica agriculture as the reduction
in railroad rates.

"Some of the older Eastern
States, recognizing the logic of the
situation, are encouraging coun-
try road building by paying part
of the cost out of the State Treas-
ury, provided the improvements are
substantial.

"The great grain-growing States
of the West, whose roads have
hardly passed beyond the pioneer
stage, should adopt the State-aid
system as the only plan by which
the great cities can be made to
share in the cost of road building."

ARE YOU A DEMOCRAT?

An old adage reads: "There is a place
for everything," and for everything to be
in its place, the LOUISVILLE DISPATCH
should find a place in the home of every
DEMOCRAT in the SUNNY SOUTH. The
Dispatch is the people's paper, owned by
the people, and is always ready to fight
for the cause of the people. IT STANDS
SQUARELY ON THE CHICAGO PLAT-
FORM, without the aid or consent of the
Gold Bug Monopolies, and a fair compar-
ison of its news service (now being fur-
nished over leased wires by the New York
Sun, the Chicago Inter Ocean and the
Northern Press Association) with that of
any other paper, will fully verify its
Motto, "If you see it in the Dispatch it's
so, and if it's so it is always in the Dis-
patch."

The Dispatch also has a staff of over
300 active correspondents in the South, and
will POSITIVELY GUARANTEE MORE
THAN DOUBLE THE SOUTHERN NEWS
of any other Louisville paper. Get the
Dispatch; it gives the news and tells the
truth about it.
Daily, 8 pages; Sunday, 24 pages; Week-
ly, 8 pages. We club with the Weekly
Dispatch at the remarkably low price of
75 Cents.
